ANANYA SHARMA

Data Scientist | Bengaluru, India | ananya.sharma@example.com | +91 90000 00001

SUMMARY

Data scientist with 4 years of experience turning messy data into production machine learning models. Strong in Python, SQL, NLP and model evaluation; comfortable presenting insights to business stakeholders.

SKILLS

Python, SQL, PostgreSQL, Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch, NLP, Machine Learning, Statistics, Data Visualization (Matplotlib, Seaborn), FastAPI, Docker, AWS (S3, EC2), Azure, MLflow, Git

EXPERIENCE

Data Scientist - Northwind Analytics (2022 - Present)

- Built a customer churn model with scikit-learn that reduced churn by 12%.
- Developed an NLP pipeline that classifies 50,000 support tickets every month.
- Served models through REST APIs with FastAPI and Docker on AWS; tracked experiments in MLflow.

Junior Data Analyst - Contoso Retail (2020 - 2022)

- Wrote SQL queries and Pandas reports for sales forecasting and built dashboards for managers.

EDUCATION

B.Tech in Computer Science - Example Institute of Technology (2020)

CERTIFICATIONS

AWS Certified Machine Learning - Specialty; Google Data Analytics Certificate

PROJECTS

Resume classifier with TF-IDF and Linear SVM; sentiment analysis of product reviews with BERT; movie recommender using collaborative filtering.
